

# XDi-L Express Deposit Solution

The XDi-L Express Deposit Solution is a lobby self-service solution designed to accept deposits of tamper-evident, barcoded bags containing cash, cheques, and other valuables, offering business customers a secure, quick and convenient means to deposit their end-of-day takings.

By enabling user identification, transaction reporting and bag traceability, the XDi-L predisposes compliance to Anti-Money Laundering regulations, provisional and same-day credit and phone app prestaging.

## BENEFITS

- **MIGRATE CASH TRANSACTIONS TO THE SELF-SERVICE WALL**  
The XDi-L saves branch staff time, energy, and paperwork by automating all tasks related to processing business deposits over the counter.
- **OFFER A QUICK AND SMOOTH EXPERIENCE TO YOUR CUSTOMER**  
Customers can now bank their banknotes, coins, cheques and documents securely, at once and in less than 30 seconds. Deposits are prepared in a safe environment and completed without cash exposure at the self-service device.
- **EASY RECONCILIATION AND AUDIT OF DEPOSIT**  
Each deposit is recorded in detail, identified by account ID, timestamp and barcode. The Branch Staff or Cash Management Provider are supplied with a full record of account details and expected amounts for easy reconciliation and Anti Money Laundering compliance.
- **LOW COST OF OWNERSHIP**  
By incorporating clever design and expert engineering, the XDi-L provides outstanding uptime and simplified maintenance, resulting in reduced operational costs.

## PROCESS

- 1. PREPARATION:** The User fills a tamper-evident, secure bag with coin, banknotes, cheques and/or documents in the safety of their home/office.
- 2. VERIFICATION (OPTIONAL):** To meet the Bank's Know Your Customer requirements, Customers can verify themselves by inserting a valid account card in the card reader or entering their account details via touchscreen or keypad.
- 3. VALIDATION (OPTIONAL):** The User enters the amount of cash and cheques in the bag, based on reconciliation /reporting requirements.
- 4. DEPOSIT:** The User scans the barcode on the bag and places it into the automated chute.
- 5. ACKNOWLEDGEMENT:** The solution prints a unique acknowledgement of the transaction, including branch details, account ID, transaction ID, timestamp and a breakdown of the amounts declared at step 3, if applicable.
