ACC-30D + Clearance

The ACC-30D Coin Scale is used in conjunction with the Clearance PRO application to weigh coins from coin hoppers and cash boxes.

The Clearance PRO application has been developed by Consillion so that coins can be accurately weighed.

FEATURES

- Comes complete with Clearance PRO application, printer, and lead.
- Export to gaming system.
- Reports listing, showing poker machines as cleared on the floor.
- Clearance data can be exported using USB or via WIFI.
- Printed receipt shows the date, poker machine number, coins cleared for each machine, total number of machines cleared and provides room for two signatures.
- Long lasting battery.
