

CDS9B

The new CDS9 coin deposit machine, allows Banking Institutions to offer their private and commercial customers added value, via a fast, reliable cash deposit service, 24/7.

An evolution of the popular CDS830, the CDS9 is designed to handle bulk coin deposits in a secure and rapid way.

There is also an option to include an escrow withdrawal function. The award-winning user interface and cash processing technology has been finely crafted to provide trouble-free operations with maximum uptime and the absolute highest level of reliability.
