

CS600

The CS600 is a heavy-duty coin sorting and counting machine. It can process up to 600 coins per minute whilst automatically sorting all denominations.

Designed for medium-low volume but constant coin counting and sorting, the CS600 has some impressive features that make it the ideal choice for small to medium businesses.

FEATURES

- The large rail coin hopper accommodates hundreds of coins in a single or continuous on the fly count operation.
- Easy to operate thanks to the large display and easy to read function buttons.
- Counts and sorts mixed coins into separate coin bins.
- Displays a report at the end of each run.
- Heavy-duty steel construction with a small desktop footprint.
