

DTC Series

The latest DTC solution is designed to satisfy the market's need for reliable and modern cash processing. It is a strong performer in sorting and counting, as well as in rejecting foreign and damaged coins.

Through the unique sensor technology the solution offers outstanding accuracy, combined with reliable functions.

Maximise the efficiency at the same time as you increase the accuracy, enabling you to focus on more profitable tasks.

FEATURES

- Latest features and operating excellence - touch-screen display and a keypad for easy operation with proven sensor technology and reliable construction.
- Heavy duty coin sorter - built in strong metal, counts up to 600 coins per minute and sorts them into boxes. Option to install a second solenoid for optimal sorting.
- Reliable and versatile - made to fit in different working environments, such as banks, supermarkets, casinos, retail stores and other areas where cash is being handled.
- Detect foreign coins - automatic rejection of foreign and damaged coins, as well as programmable batch stops.
- Flexible choices - the DTC-1 sorts and counts one denomination and the DTC-6 six. An optional second solenoid can also be installed to separate a second currency or tokens.
- Several sorting options - can be equipped with bag holders as well as coin tube holders.
- Connectivity - hardware ports ready for computer and a specific interface: ERP integration, financial control, report generation and automated reconciliation.
