

NC6000

The NC6000 is a formidable high-speed two-pocket sorter, able to auto-detect and process up to 7 currencies at once.

The unit's all-in-one modular sensors provide remarkable accuracy and counterfeit detection while the large 1,000 note hopper, 4.3" touch screen, and intuitive user interface ensure easy navigation and smooth operation.

Designed for busy environments handling several currencies or different banknote series at once, the NC6000 is ideal for any business wanting to process their cash quickly and accurately.

FEATURES

- Large 1,000 note capacity hopper + 200 note stacker and 100 note reject pocket.
- Counts, authenticates and sorts banknotes by denomination, orientation, facing and fitness.
- Smart Detection Module with UV, MG, IR and CIS sensors for remarkable accuracy each pass.
- Able to process up to 7 currencies at a time, with auto-detect mode.
- High speed processing: 1,000 notes/min in value counting and 800 notes/min in fitness sorting or serial number recognition.
- 4.3" Touch Screen and intuitive user interface for easy operation.
- Optional functions include barcode and ticket detection.
- Extremely compact and relatively portable.
