

XDi-K EXPRESS DEPOSIT SOLUTION

The XDi-K Express Deposit Solution turns your manual night safe box into an intelligent deposit facility by adding the functionality of a 15" touch screen, barcode scanner and receipt printer. This provides the ability to record each transaction in detail and use the data to gain visibility of the contents of the night safe.

With the assistance of the XDi-K solution, a full bag deposit transaction still takes less than 30 seconds. All paperwork is automated and each transaction is identified by account ID, timestamp and barcode. An acknowledgement slip is provided to the customer for peace of mind. Thanks to the integrated reporting and monitoring platform, CashLantern, CIT operators can be alerted when the night safe box is reaching capacity and have a report of the expected contents by transactions to facilitate and expedite the reconciliation process.

HIGHLIGHTS

NON-DISRUPTIVE - The XDi-K allows to enhance your bag deposit facilities while maintaining your existing installations and selfservice wall layout

LIGHTWEIGHT - With a modern, simple design and lightweight construction, the XDi-K can simply be bolted next to a night safe chute and blend in a modern branch design

INTELLIGENT - The XDi-K transforms deposit chutes into intelligent bag deposit machines, featuring advanced monitoring and reporting capabilities and a great User Interface design

PROCESS

- 1. VERIFICATION** - The user verifies their account by inserting a valid account card in the card reader, scanning a QR code or by entering their account number and sort code via the touchscreen
- 2. VALIDATION** - The user enters the amount of cash and/or cheques in the bag
- 3. DEPOSIT** - The user scans the barcode on the machine and inserts the bag into the existing night safe
- 4. ACKNOWLEDGEMENT** - The machine provides a unique acknowledgement of the transaction, recording account ID, timestamp, barcode number and amount deposited in the bag

BENEFITS

- OFFER A QUICK AND SMOOTH EXPERIENCE TO YOUR CUSTOMERS**
An average deposit transaction only takes around 30 sec to complete and it is confirmed by an acknowledgement slip with transaction details
- AUTOMATION OF CASH AND ADMIN HEAVY TRANSACTIONS**
Branch staff are freed from having to process the bags and prepare for CIT pickup; they can be redirected to customer service and consultative tasks
- EASY RECONCILIATION AND AUDIT OF DEPOSIT**
Bank staff or CIT are provided with a full record of expected amounts and account details for easy reconciliation
- CIT PICKUPS CAN BE AUTOMATED**
Thanks to CashLantern threshold alerts, an email can notify the CIT or Branch Manager that the XDI-K is reaching maximum capacity

FEATURES - XDi-K Standalone, Front Access

Display	15" Colour LCD touchscreen
Printer	80mm thermal printer
Operating System	Windows 10
Dimensions	615 h x 400 w x 240 d (mm)
Weight	Approx. 40Kg
ADDITIONAL MODULES	
Barcode Reader	2D barcode reader (compatible with 1D codes)
Card Reader	Dip card reader (EMV)
	NFC reader (contactless)
SOFTWARE, MONITORING AND REPORTING	
Connectivity	XFS Service Providers can be provided for all modules, allowing integration with a multivendor application and connectivity to the ATM network.
