BACK-OFFICE CASH RECYCLING SOLUTION
AST9000

BACK-OFFICE CASH RECYCLING BENEFITS

Our Cash Recycling Solutions are designed to fully automate your cash handling procedures and recycle cash in-house, with the following benefits:

|		
Reduce manual cash counting	Eliminate cash errors and shrinkage	Reduce cash-in-transit (CIT) visits
Automate reconciliation. Safe audit no longer required	Deposit end-of-day takings in less than one minute	Remove idle cash and optimise cash in store

FUNCTIONS

- Note deposit and dispense (recycling)

- Receive and process end-of-day deposits of notes – storing the deposited cash in a safe-graded storage module

- Dispense notes upon request by authorised operators, or in exchange of large denomination banknotes

- Simplify CIT management as time on site, frequency of visits, and costs are dramatically reduced

- Accept, authenticate, allocate, and store notes all through one convenient slot

- Allow to manually key-in vouchers and tickets using the drop safe function

- Facilitate ATM top-ups and clearances

- Each transaction is logged by USER ID, timestamp, and amount by denomination, providing full visibility of cash in real-time
