

Jolly PRO

Thanks to its wide display, removable SD-Card and 32-bit CPU, Jolly PRO is a complete, efficient and versatile change machine, designed to fit anywhere as wide as 20cm.

Despite its compact size, Jolly PRO offers excellent dispensing capacity (3,400 x \$1 coins), while all peripherals are integrated by means of the ccTalk communication protocol, which guarantees maximum security against electronic frauds.

Its SD-Card allows the exporting accounting data, and the importing configuration parameters and machine cloning.

FEATURES

- High performance 32-bit CPU + connection of peripherals via ccTalk
- 1 Evolution hopper with extension
- The hopper can be refilled externally without accessing the cash compartment
- SD-Card for exporting accounting data, transferring configuration and updating firmware
- The collection of large amounts of coins and tokens is facilitated by the compartment preset for free dispensing or for collection cups
- Technical compartment, containing all the electronics and payment systems, isolated from the cash box compartment
- A ballast can be placed at the base in a separate lockable compartment to ensure greater stability, as well as to prevent the change machine from being stolen
- Tempered steel protection bars
- Slim design, easy to fit in a limited space
- NV9 USB/NV10 USB Banknote Reader optional
