SC3003

The SC3003 is a high capacity coin counter with quality functions acknowledged worldwide.

In short, the SC3003 is considered to be one of the most robust and high-quality coin counters on the market today.

The unit has been specifically developed to count large quantities of coins at high speed, ensuring efficient and reliable counting of incoming coins and tokens.

A speed of 3500 coins per minute makes it a popular coin counter in banks, cash centres and gaming venues all over the world.

FEATURES

- Speed: up to 3,500 coins/minute.

- Continuous or resettable batch counting.

- Auto-stop function detects when the last coin has gone through.

- Non-volatile memory allows storage of counted coins

- Automatic off-sorting for smaller coins allows fuss-free separation for mixed denominations.

- Options include extension top hopper, bag hangers (ideal for batching), external customer display and interface RS 232 serial port.
