

TINY TELLER

The Tiny Teller is back due to popular demand, with improved functionalities. Specially designed for the South Australian gaming market, the Tiny Teller changes any note denomination and \$2 coins, into \$1 coins quickly and accurately. Robust and reliable, with excellent security features, this is an ideal coin change machine, which ensures high coin capacity within a compact design.

FEATURES

- Holds up to 2000 in \$1.00 coins.
- LCD graphic display prompts the user with steps required to complete a transaction.
- Super-compact design can be fit in spaces as narrow as 20 cm.
- Connection of peripherals via ccTalk- the standard communication protocol for quality change machines.
- SD-CARD for exporting accounting data, transferring configuration and updating firmware.
- New 32-bit CPU with SD-card, enables staff to export accounting data and import configuration parameters.
- The structure protects the change machine from liquid spills from above.
- Large dispenser, ideal for using with coin cups.
